

Committee 14

DCI-IC 75-1546

24 December 1975

MEMORANDUM FOR: General Wilson
SUBJECT: Current IHC Activities

1. During your absence this past week, the following has transpired which may be of particular interest to you:

25X1 a. [redacted] has accepted a full-time position with [redacted]

25X1 Falls Church. This work will put him back in his area of technical specialization. He will complete work with ICS near the end of January and then will immediately enter on his new employment. We will make appropriate arrangements with EO/ICS on administrative details attendant on [redacted] completion of duty.

25X1 b. I am working with the CIA Comptroller's staff to structure a number of fiscal alternatives for Laserfax. Jack Iams anticipates bringing the matter up at a Management Committee meeting, as early in January as his office is able to assemble all the fiscal data it needs to permit top management to look at this and other current fiscal problem cases. I expect to provide you with the relevant details well before that meeting. One possible option we are examining is for a 6-7 station net using funding split between FYs 76 and 77. Another option is a 3-4 station mini-network.
